

## IMPORTANT STATEMENT

### The Float Foundation transfers sponsorship of running costs of the HHCC /CPCDO home to a group of Canadian friends

At the end of 2022 discussions have taken place between the board of our foundation and a group of Canadian friends of the orphanage in Battambang Cambodia with the aim that they will take over the annual contributions to the running costs of the organization from us. These discussions have led to an agreement which will take effect in 2023.

After our organization has been providing the necessary funds for almost 17 years, they have now taken over from us. We are very happy about this.

We can be grateful and proud about the fact that 17 years ago we founded a house for the care of underprivileged children in this region of Cambodia and that this can now continue to exist and the good work carries on into the future.

Of course, we were only able to achieve all this with the fantastic help of our sponsors, whom we hereby thank very much for their great contribution to the project.

In the end we were able to provide 120 underprivileged children with shelter, education, a job or training and thus a hopeful stable future. This is a great result and the work continues!!!

Again, our heartfelt thanks to everyone who has contributed to this wonderful project on behalf of the children for whom we have meant so much.

The Float Foundation
